Proposal for Gender Sensitisation program with College 2020

About Swayam

Swayam is a Kolkata based women's organisation committed to advancing women's rights and ending discrimination and violence against women and girls. Through our Direct Support Services, we facilitate the empowerment of women survivors of violence and enable them to become self confident, self sufficient and self reliant. Alongside, through our awareness building programmes we generate discussion, debate and action in the society to challenge social norms, values and systems that deem discrimination and violence against women and girls acceptable.

Swayam's work with Youth

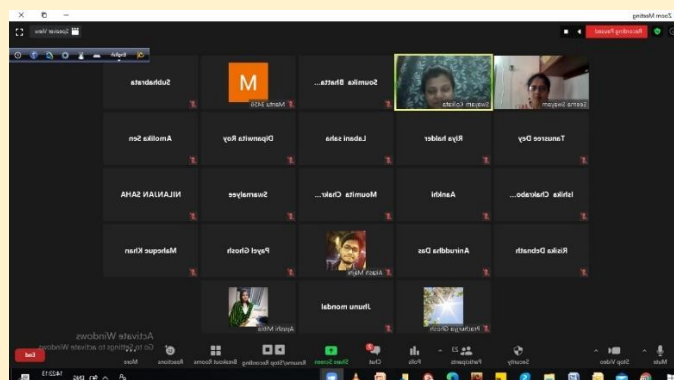

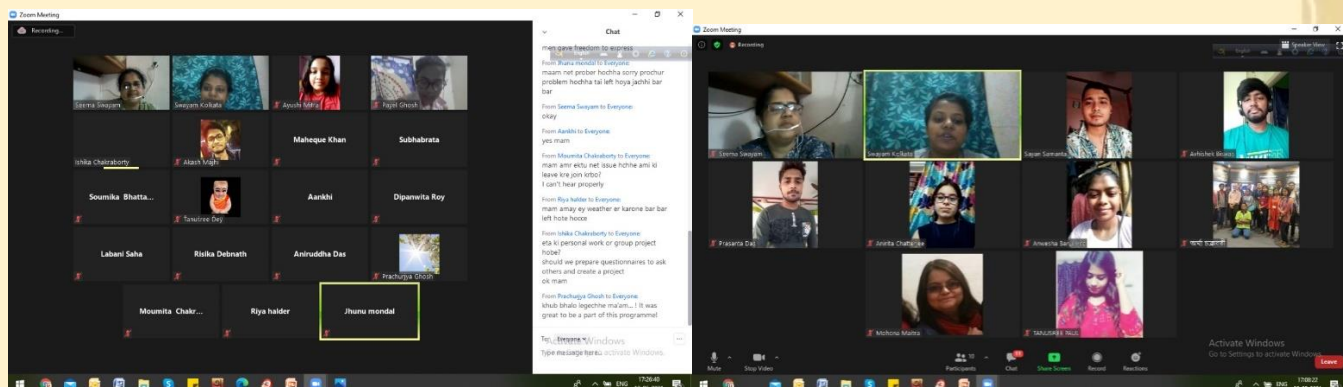

Swayam has had a long standing practice of collaboration with various educational institutions to promote gender equality. Swayam works with schools and colleges students since its inception to help them become sensitive towards the issues of gender, sexuality, patriarchy and so on, in order to enrich their understanding towards women's rights. Through our trainings, workshops and awareness programmes, we aim to groom students to become agents of change in their own spheres and become instrumental in ending violence against women and girls.

Partnering with Educational Institutions for long term awareness building programmes with Youth

We have experienced that working with youth can be immensely powerful as they represent the future and have the will to change the society they are living in. We aim to develop a program in partnership with colleges which will concentrate on taking young students through an empowering journey to develop their skills and challenge gender stereotypical behaviour. Through this collaboration, youth will gain experience and confidence, we will gain a fresh perspective on youth culture and together we can develop a more effective outreach. In this context we would like to propose following interactive programmes with your college.

- Interactive session with youth on topics like Gender equality, masculinity, domestic violence, cyber crime, sexuality, women's rights etc.
- Film screening and discussion
- Awareness programs with innovative gender games

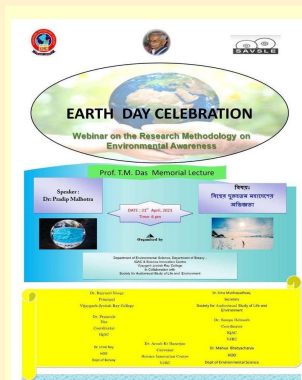

Besides, we also organise 3 day gender training for fresh batch of college students where 2 to 3 participants from various colleges participate and build their understanding on gender issues. This training program is organised twice in a year.
